REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., November 1, 1910.

SIR: I have the honor to make report of the work of the Bureau of Internal Revenue for the fiscal year ended June 30, 1910, accompanied with a statement of the receipts from the several sources of internal revenue for the months of July, August, and September of the current fiscal year.

RECEIPTS.

The total receipts of this bureau for the past fiscal year amounted to \$289,957,220.16. Of this total there was collected from ordinary sources \$268,997,436.42, an increase of \$22,784,717.20 over the previous fiscal year, and from the corporation tax there was collected \$20,959,783.74, making the total increase over the collections of the previous fiscal year \$43,744,500.94. The collections exceeded the estimates of November, 1909, \$21,957,220.16.

The receipts for the first three months of the current fiscal year as compared with the first three months of the fiscal year 1910 show an increase in revenue from ordinary sources amounting to \$6,489,366.03 and there has been collected in addition from corporation tax \$5,-912,486.52, making a total increase of \$12,401,852.55.

Based on this rate of increase, I estimate that the collections for the present fiscal year will approximate \$308,000,000, of which \$283,000,000 will be collected from ordinary sources and \$25,000,000 from corporation tax.^a

I estimate that the collections for the fiscal year ending June 30, 1912, will approximate \$308,000,000.

The objects of internal taxation producing the largest amounts of internal revenue during the past fiscal year are distilled spirits, \$141,523,554.06; fermented liquors, \$59,485,116.82; tobacco, \$58,-118,457.03, and corporation tax, \$20,959,783.74.

^a It is estimated that the tax assessed against the corporations on account of business transacted during the calendar year ending December 31, 1910, will approximate \$28,000,000. On account of the fact, however, that under the law the collection of a portion of this tax may be projected into the ensuing fiscal year it is impossible to estimate the amount of collections from this source prior to July 1, 1911. The figures are based on the experience of the past year, but are liable to wide variation.

RECEIPTS IN LARGE TAX-PAYING DISTRICTS.

The leading States in the payment of internal-revenue tax are Illinois, \$49,165,272.73; New York, \$36,157,326.39; Kentucky, \$32,-260,278.47; Indiana, \$28,885,024.02; Pennsylvania, \$25,982,844.76, and Ohio, \$20,982,844.76.

Among the States paying the smallest amounts are Mississippi, New Mexico, North Dakota, Vermont, and Wyoming.

Of the 66 collection districts subject to internal-revenue laws the fifth district of Illinois reported the largest collection—\$29,419,080.

In 1909 the total production of distilled spirits was 139,891,613 gallons. In 1910, 163,893,960 gallons, an increase of 24,002,347 gallons. In 1909, 116,650,165 gallons of tax-paid spirits were withdrawn; in 1910, 128,657,776 gallons, an increase of 12,007,611 gallons. There has also been an increase in the amount of tobacco and snuff manufactured, an increase in the production of beer, and a large increase in the production of oleomargarine.

The four States having the largest production of distilled spirits during the past fiscal year are Illinois, 38,027,381 gallons; Kentucky, 36,735,235 gallons; Indiana, 25,873,720 gallons; California, 9,377,373 gallons.

The three collection districts having the largest output of distilled spirits are fifth Illinois, 28,480,595 gallons; fifth Kentucky, 17,-280,173 gallons; seventh Indiana, 16,082,912 gallons.

During the fiscal year ended June 30, 1910, there were tax paid for bottling in bond 8,985,759.4 tax gallons, as compared with 6,365,839 tax gallons tax paid during the previous fiscal year, an increase of 2,619,920.4 tax gallons.

The four States which produced the largest quantity of fermented liquors are New York, 13,097,340 barrels; Pennsylvania, 7,664,141 barrels; Illinois, 6,024,884 barrels; Wisconsin, 4,816,387 barrels.

The two districts which produced the largest quantity of fermented liquors are third district, New York, 5,170,773 barrels; first district, Illinois, 5,156,814 barrels.

The four States producing the greatest number of cigars weighing more than 3 pounds per thousand, and the production of each during the year, are as follows: Pennsylvania, 1,774,858,617; New York, 1,151,682,078; Ohio, 659,649,735; New Jersey, 519,309,215.

The two districts showing the largest production of cigars are the ninth Pennsylvania, 673,438,383, and the first Pennsylvania, 667,262,321.

The States showing the greatest production of little cigars (weighing less than 3 pounds per thousand) are: Virginia, 388,345,960; Maryland, 296,397,930; New York, 184,697,249.

The greatest production of little cigars by districts is as follows: Maryland, 296,397,930; Sixth Virginia, 203,397,760; Second Virginia, 184,948,200; first Pennsylvania, 168,768,580.

The States of New York, Virginia, Louisiana, Pennsylvania, California, and Massachusetts, in the order named, show the greatest production of cigarettes weighing less than 3 pounds per thousand: New York, 4,351,000,245; Virginia, 1,679,450,650; Louisiana, 502,794,320; Pennsylvania, 116,575,675; California, 89,424,060; Massachusetts, 48,852,882.

The three districts showing the greatest production of little cigarettes are the second New York, which produced 1,831,111,620, the second Virginia, which produced 1,673,630,150, and the third New York, which produced 1,485,999,735.

New York State produced the greatest number of large cigarettes, showing a production of 17,191,610, of which number 12,121,510 were manufactured in the third district and 5,021,600 in the second district.

The States of North Carolina, Missouri, Ohio, Kentucky, Virginia, and New Jersey, in the order named, were the largest producers of both chewing and smoking tobacco, the quantity produced being as follows: North Carolina, 82,447,899 pounds; Missouri, 74,747,932 pounds; Ohio, 46,453,711 pounds; Kentucky, 44,937,819 pounds; Virginia, 28,970,620 pounds; New Jersey, 28,179,726 pounds.

The districts producing the largest quantity were: First Missouri, 74,566,186 pounds; fifth North Carolina, 44,381,908 pounds; first Ohio, 43,583,387 pounds; fifth Kentucky, 39,488,051 pounds; fourth North Carolina, 38,065,991 pounds.

The four States yielding the largest amount of corporation tax are: New York, \$3,756,833.38; Pennsylvania, \$3,244,923.80; Illinois, \$2,111,865.57; Ohio, \$1,500,127.10.

The districts in which the largest collections of corporation tax were made are Second New York, \$2,424,831.02; first Illinois, \$1,956,316.55; twenty-third Pennsylvania, \$1,646,461.88; first Pennsylvania, \$1,361,427.78.

COST OF COLLECTING THE INTERNAL REVENUES.

The cost of collecting the internal revenues for the past fiscal year was 1.74 per cent. The cost of collection during the fiscal year 1909 was 2.02 per cent. The average cost since the creation of the bureau is 2.66 per cent.

The cost of collection for the past fiscal year, distributed approximately among the different items of appropriation, was as follows:

Salaries and expenses of collectors of internal revenue, 1910.....	\$2, 043, 898. 46

SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1912, the sum of \$354,290^c as salaries for the following officers, clerks, and employees in this bureau:

^a Where there was not a sufficient amount of alcohol denatured at one distillery to employ the entire time of one gauger in such work, the compensation and expenses of such gauger were paid from the appropriation for "Salaries and expenses of agents and subordinate officers of internal revenue."

^b Ninety thousand dollars included in this estimate is for the purpose of granting leave of absence, with pay, and traveling expenses, when under assignment, to storekeepers, storekeeper-gaugers, and gaugers.

^c This estimate includes the amount of \$18,240 from which the following were formerly paid from the appropriation for "Withdrawal of denaturalized alcohol:" 1 chief chemist, 1 first assistant chemist, 1 clerk of class 4, 1 clerk of class 3, 4 clerks of class 2, 3 clerks of class 1, and 1 messenger.

1 Commissioner of Internal Revenue.....	\$6,000
2 deputy commissioners, at \$4,000 each.....	8,000
1 chief chemist.....	3,000
1 chemist.....	2,500
2 first assistant chemists, at \$1,800 each.....	3,600
1 second assistant chemist.....	1,600
1 third assistant chemist.....	1,400
6 heads of divisions, at \$2,500 each.....	15,000
3 heads of divisions, at \$2,250 each.....	6,750
1 superintendent of stamp vault.....	2,000
1 private secretary.....	1,800
4 clerks of class 5.....	8,000
29 clerks of class 4.....	52,200
25 clerks of class 3.....	40,000
41 clerks of class 2.....	57,400
40 clerks of class 1.....	48,000
32 clerks, at \$1,000 each.....	32,000
40 clerks, at \$900 each.....	36,000
4 messengers, at \$840 each.....	3,360
21 assistant messengers, at \$720 each.....	15,120
16 laborers, at \$660 each.....	10,560
272	354,290

I also recommend the appropriation of the sum of \$3,400 as salaries of two stamp agents, one at \$1,600, one at \$900, and one counter at \$900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualifications that if the actual collections vary from the amounts estimated the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
\$25,000 or less.....	\$2,000	\$375,001 to \$425,000.....	\$3,375
\$25,001 to \$37,500.....	2,125	\$425,001 to \$475,000.....	3,500
\$37,501 to \$50,000.....	2,250	\$475,001 to \$550,000.....	3,625
\$50,001 to \$75,000.....	2,375	\$550,001 to \$625,000.....	3,750
\$75,001 to \$100,000.....	2,500	\$625,001 to \$700,000.....	3,875
\$100,001 to \$125,000.....	2,625	\$700,001 to \$775,000.....	4,000
\$125,001 to \$175,000.....	2,750	\$775,001 to \$850,000.....	4,125
\$175,001 to \$225,000.....	2,875	\$850,001 to \$925,000.....	4,250
\$225,001 to \$275,000.....	3,000	\$925,001 to \$999,999.....	4,375
\$275,001 to \$325,000.....	3,125	\$1,000,000 and upward.....	4,500
\$325,001 to \$375,000.....	3,250		

In addition to the salary based upon the above-mentioned scale, the collector shall receive a commission of one-half of 1 per cent on tax-paid spirit stamps, and may receive additional compensation on account of territorial extent, as provided by law, provided the gross compensation does not exceed \$4,500. (See sec. 3148 as amended and sec. 3314, Rev. Stat.)

OFFICIAL FORCE.

At the close of the fiscal year ended June 30, 1910, 258 officers, clerks, messengers, and laborers were employed in this bureau, and the aggregate amount paid during the year for their salaries was

\$321,967.94, which does not include office force paid from the appropriation for "Withdrawal of denaturalized alcohol," from which was paid \$28,958.04, covering salaries of 23 employees.

The force connected with this bureau during the fiscal year which ended June 30, 1910, in the various districts throughout the United States, as reorganized under the executive order of May 21, 1887, was 66 collectors, who received per-annum salaries and commissions as follows:

Number.	Salary.	Number.	Salary.
50.....	\$4,500.00	1.....	\$3,739.44
1.....	4,406.92	1.....	3,625.55

1.....	3,820.33	1.....	3,125.00
1.....	3,750.00		

There were also employed 1,186 deputy collectors, who received per-annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
7.....	\$2,500	1.....	\$1,250	9.....	\$500
14.....	2,400	291.....	1,200	2.....	480

12.....	1,300	18.....	1,000		
1.....	1,250	12.....	900		

Also 12 messengers and 2 janitors, who received per-annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1.....	\$900	1.....	\$700	2.....	\$300
1.....	840	7.....	600		
1.....	720	1.....	450		

STOREKEEPERS, GAUGERS, ETC.

There were also employed 161 gaugers who received fees not to exceed \$5 per day, 54 storekeepers whose pay did not exceed \$4 per day, and 1,958 storekeeper-gaugers whose pay ranged from \$2 to \$5 per day, and 6 distillery surveyors at \$2.50 per day. All the employees above enumerated were paid only when actually employed.

OBJECTS OF TAXATION.

DISTILLED SPIRITS.

While the enactment of state-wide prohibitory laws in some States and of local-option laws in other States has greatly reduced the number of distilleries of the smaller classes, and in some districts has reduced the number of rectifiers and wholesale and retail liquor dealers, the production and withdrawal for consumption of distilled spirits has greatly increased during the past fiscal year, as the following comparative statement of production of distilled spirits from materials other than fruit during the fiscal years ended June 30, 1897, to June 30, 1910, inclusive, shows.

During the fiscal years 1898 to 1907 the production of distilled spirits each year was much in excess of the withdrawals for all purposes, resulting in a stock in distillery and general bonded warehouses at the end of the fiscal year 1907 of 245,438,816 original gauge gallons, being an increase over a similar stock held in bond at the expiration of the fiscal year ended June 30, 1898, of 112,452,549.3 original gauge gallons. The stock in bond June 30, 1910, was 233,508,674.6 original gauge gallons, and the withdrawals for all purposes during the fiscal year ended June 30, 1910, were in excess of the production during said year of 4,367,240.6 original gauge gallons.

The tax-paid withdrawals of spirits distilled from material other than fruits during the fiscal years ended June 30, 1897, to June 30, 1910, inclusive, were as follows:

Fiscal year ended June 30—	Tax gallons.	Fiscal year ended June 30—Contd—	Tax gallons.
1897.....	68,661,038.5	1904.....	116,033,305.6

1903.....	112,788,168.0	1910.....	126,384,726.7

From the foregoing it will be observed that the withdrawals on payment of tax from bonded warehouses during the period from 1897 to 1907 increased approximately 100 per cent, and that there was a decrease in tax-paid withdrawals for the fiscal years ended June 30, 1908, and June 30, 1909, as compared with the previous years' withdrawals, of 14,327,472.3 and 5,010,016.2 tax gallons, respectively, and an increase for the year 1910 over 1909 of 11,421,148.5 tax gallons.

During the year there were operated 444 grain distilleries, 16 molasses distilleries, and 446 distilleries engaged in the production of brandy from fruit. This was a decrease of 386 distilleries.

On December 24, 1909, President Taft rendered his decision in the prolonged controversy as to what is whisky. New internal-revenue regulations governing the marking and branding of distilled spirits were prepared and issued in conformity with this ruling, to be effective on and after July 1, 1910. On June 28, 1910, however, a temporary restraining order was entered by consent between the Department of Justice and the parties at interest in the United States District Court for the Eastern District of Louisiana, and in accordance with advice from the Department of Justice the provisions of the regulations referred to were amended as far as was necessary to conform therewith.

During the past fiscal year the bureau adopted stricter methods in dealing with the manufacture and use by rectifiers of certain products of sugar fermentation known as "base wine," with results very gratifying from the revenue standpoint.

The insistence of the enforcement of the statutes governing rectifiers has also resulted in practically preventing the placing on the market of non-tax paid spirits by a class of persons who had been permitted to qualify as rectifiers and extract from the staves of empty spirit packages the alcohol remaining therein. This business had assumed considerable proportions and the amount of revenue lost thereby was quite large.

The volume of business at rectifying houses has increased substantially over that of the previous fiscal year, as shown by the quantity dumped for rectification and rectified.

Practically no serious frauds were discovered during the year in connection with sweet-mash distilleries. Frauds in connection with the smaller sour-mash distilleries, however, continued with little sign of diminution, but the increased efficiency of the inspection force and the increased use of the Chemistry Division, together with a more definite line of demarkation between the two classes of distilleries and certain improved methods of supervision of these distilleries, will, it is believed, to a large extent eliminate the opportunity for frauds at these plants and give the bureau the same control over distilleries of this class that it now has over the sweet-mash distilleries.

FRUIT DISTILLERIES.

It has developed that there is a need of better supervision of fruit-brandy distilleries. During the year considerable frauds were detected at certain of these distilleries, often by chemical analyses showing the illicit use of sugar. The bureau has now under consideration certain changes in regulations and certain improvements in the method of supervising these establishments by which it is believed fraud will be effectually checked, while legitimate manufacturers will be able to operate without unnecessary restraint.

FERMENTED LIQUORS.

The production of fermented liquors during the year was 59,544,775 barrels, as against 56,364,360 barrels the previous year. The number of breweries operated was 1,568, as against 1,622 the previous year.

No serious frauds in connection with fermented liquors were discovered during the year.

The bureau has under consideration the determination of the status of certain manufacturers of a product known as "near beer," which product contains less than one-half of 1 per cent of alcohol. Under the ruling at present in force in this bureau manufacturers of this product are exempted from special tax, the product itself is exempted from the barrel tax, and dealers therein are required to pay no special taxes. Field investigations are now under way and the matter of properly determining the status of such manufacturers and their product, and dealers therein, will be reopened and reheard.

TOBACCO.

The receipts from taxes on manufactured tobacco, snuff, cigars, and cigarettes for the fiscal year ended June 30, 1910, amounted to \$58,118,457.03, an increase of \$6,231,278.99. This increase was along the entire line of tobacco products subject to taxation.

Under the tariff act of August 5, 1909, the rate of taxation of manufactured tobacco, snuff, cigarettes, and little cigars was considerably increased, effective July 1, 1910. New regulations and a complete new issue of stamps were gotten out in order to carry this legislation into effect.

On account of certain tax exemptions provided for under this act a new class of leaf-tobacco dealers was created who are permitted to sell leaf tobacco free of tax. Sufficient time has not yet elapsed to determine how this legislation will affect the receipts from the taxation of tobacco products.

During the past fiscal year there were no very important violations of law discovered among manufacturers of tobacco products, but there were a great many minor offenses, confined almost exclusively to small manufacturers of cigars and cigarettes. On account of the impossibility of accurately following and checking the use of individual stamps, detection of these offenses is very difficult. The bureau has now under consideration the adoption of some process, by perforation or otherwise, to properly identify the individual stamps so that their re-use can more easily be detected.

There were in operation during the calendar year 1909 (the latest information available) 22,912 cigar factories and 572 cigarette factories, this being an increase of 44 cigar factories and 21 cigarette factories over the previous year.

PHILIPPINE TOBACCO PRODUCTS.

Under section 5 of the tariff act of August 5, 1909, and the opinion of the Attorney-General under date of November 12, 1909, the Bureau of Internal Revenue provided for the collection of internal-revenue taxes on the tobacco, cigars, and cigarettes imported into the United States from the Philippine Islands and accounting for such collections as a separate fund to be turned over to the government of the Philippine Islands. Under this act this bureau collected on tobacco products imported from the Philippine Islands, as a separate account to be turned over to the Philippine Islands treasury in accordance with the opinion of the Attorney-General, the sum of

\$265,171.80. Thirty-six thousand and sixty-six dollars and thirty-six cents of this sum was received by collectors of internal revenue in the United States, and \$229,105.44 from stamps sold through the regularly designated stamp agent in the Philippine Islands and affixed there in order to facilitate shipments.

Complaints were received at this office from the tobacco trade generally, protesting against the use of an official label attached to tobacco products imported from the Philippine Islands, which label purported to be a government guarantee of the grade of cigars, the sanitary conditions of the factories where the same were made, and of the operatives producing such products. It was very difficult to convince the tobacco manufacturers of the country that the Treasury Department had no jurisdiction over this matter, but that it was a matter to be dealt with solely by the War Department and the insular government. In spite of all the publicity that has been possible to give to this fact, the receipt of complaints, oral and written, in regard to the use of this label, even in its modified form, is of very frequent occurrence.

SPECIAL EXCISE TAX ON CORPORATIONS.

Attention was called in the report for the fiscal year 1909 to the enactment of the special excise tax on corporations, found in paragraph 38 of the tariff act of August 5, 1909. The work of preparing and having printed the necessary forms, regulations, returns, etc., was completed in good time, and the necessary field and office work of listing the corporations, etc., was done in like manner throughout all the collection districts. Special commendation is due to the employees of this bureau engaged in this work, and to collectors and their forces throughout the country. The amount of detail work involved in the preparation for the first year's collection was very great, and employees of this bureau and collectors and their forces throughout the country worked in a most cheerful and enthusiastic manner day and night, Sundays and holidays included, in order to complete the work within the limits prescribed by the statute. The comparative ease with which this tax has been collected is largely due to the thorough and conscientious manner in which this preparatory work was performed.

On the original lists there appeared the names of something over 400,000 corporations, but the records of many States had not been kept in such a manner as to show which companies had completed their organizations and which not, or which had subsequently gone out of business, and in many cases insufficient data was secured to show which corporations were exempted under the provisions of the statute. Upon final revision of the lists it was found that 262,490 corporations were liable to the provisions of this tax. The canvassing of districts by revenue officers, now in progress, may slightly change these figures.

The total collections from this source to October 1, 1910, have been \$26,872,270.26, of which \$20,959,783.74 was collected during the fiscal year 1910, and \$5,912,486.52 subsequent to that date.

Legal proceedings have been instituted against a small number of corporations which to this date have refused to file the proper return, or having filed the proper return refused to pay the assessment

thereon. There was some delay on the part of corporations in making the returns, due to the belief on the part of some that Congress would take action looking to a postponement of the collection of the tax, and the further belief on the part of others that the failure of the Supreme Court to pass on the cases instituted to determine the constitutionality of the tax might in some way postpone collection. The penalties collected for the fiscal year on this account, approximating \$123,000, are therefore believed to be abnormal. Upon the whole, the tax has been collected with as little difficulty or friction as has been occasioned by the collection of any internal-revenue tax.

OLEOMARGARINE.

During the fiscal year ended June 30, 1910, there was produced 135,685,289 pounds of oleomargarine free from artificial coloration and 6,176,991 pounds of the product artificially colored, or a total of 141,862,282 pounds, as against a total of 92,282,815 pounds during the previous fiscal year, showing an increase of 49,112,775 pounds in the uncolored and 466,690 pounds in the colored, making a total increase of 49,579,465 pounds over the former year. The withdrawals tax paid amounted to 135,159,429 pounds of uncolored and 3,416,286 pounds of the colored product, or a total of 138,575,715 pounds, as against 89,497,278 pounds for the fiscal year ended June 30, 1909, being a total increase of 49,078,437 pounds over that year.

These figures show that the production and withdrawals taxpaid of oleomargarine during the fiscal year 1910 were the largest since the inception of the original law imposing a tax upon the regular sale and manufacture of this product. During the fiscal year 1902, the banner year under the old law, there was produced 126,316,427 pounds, and withdrawn taxpaid 123,126,636 pounds. From the revenue standpoint, however, the results for the past year are disappointing; the tax collected for the fiscal year 1910 amounting to \$689,856.42, an increase of only \$50,996.09 over the fiscal year 1909, while under the old law in 1902 there was collected on a smaller production the sum of \$2,462,532.72. The small increase in tax collections during the fiscal year 1910 as compared with those for the fiscal year 1909 is due to the decreased amount of oleomargarine taxpaid at the rate of 10 cents per pound.

Exports of the colored product showed an increase of 317,302 pounds, while there was a decrease of 15,383 pounds in the uncolored, or a net increase of 301,919 pounds in the exportations for the fiscal year ended June 30, 1910, over the former year.

A great increase is shown in the number of retail dealers during the year, there having been issued 2,761 special-tax stamps covering the sale of the artificially colored and 42,029 for the sale of the uncolored product, making a total of 44,790 retail dealers as against a total of 25,040 for both classes during the fiscal year 1909.

During 1910, 40 wholesale dealers paid special tax to engage in the sale of colored oleomargarine and 577 for the uncolored, a total of 617, an increase of 213 dealers in these classes as compared with the previous year.

There was no let up in the activity of officers in the field in detecting and investigating violations of this law, but it is probable that those discovered represent but a small portion of the offenses com-

mitted and remaining undetected. A total of 2,754 violations of the various sections of the law and regulations were reported, involving 166 cases of illicit manufacture or attempts to evade payment of the 10 cents per pound tax on the artificially colored product. There were 95 violations by wholesale dealers and 2,493 by retail dealers, consisting principally of failure to pay special taxes; packing contrary to law; failure to mark and brand the product sold; failure to destroy stamps on empty packages; and removal of stamps, marks, and brands from original packages. A large number of prosecutions have been instituted throughout the country. There have been some convictions and a number of indictments are pending at this time.

In addition to sentences of imprisonment in a number of cases, a total of \$80,428.53 was recovered through fines, compromises, and assessments of special and stamp taxes.

Attention was called in the report of 1909 to the defects in the oleomargarine statutes as construed by the United States courts. The existence of these defects has been even more markedly demonstrated during the fiscal year just closed. It would appear that if this law is to be satisfactorily administered, either as a revenue measure or as a measure to protect the public in its purchases, remedial legislation is absolutely essential. Various representatives of the internal-revenue service attended the extended hearings before a committee of Congress at the last session and testified in detail as to the existing defects. It is respectfully requested that Congress be urged to pass at the present session a law which can be better enforced.

ADULTERATED BUTTER.

During the past fiscal year there were 133 cases reported against manufacturers of butter for putting adulterated butter, as defined by the act of May 9, 1902, on the market, and there were also 13 cases involving wholesale dealers and 43 cases involving retail dealers in these violations. There was collected from this source during the fiscal year 1910 the sum of \$37,350.70, as against a total of \$38,450.70 for the fiscal year 1909.

RENOVATED BUTTER.

There was a slight increase in the production of renovated butter during 1910 over that of 1909, and a small decrease in the withdrawals tax paid. Violations of the law relating to renovated butter were very few and of little consequence.

FILLED CHEESE.

A small increase is shown in the operations in filled cheese during the year 1910 as against the fiscal year 1909. All of the product manufactured and tax paid was exported from this country.

MIXED FLOUR.

Operations in mixed flour show an increase for the year ended June 30, 1910. As a revenue measure this law is of little value, the collections thereunder being practically nothing, but for the purpose of preventing adulteration of flour it has apparently been entirely suc-

cessful, as no violations of this character have been discovered. All the product manufactured, tax paid, and marketed as mixed flour consists of compounds or prepared blends of cereals for certain special culinary purposes and not for use as ordinary flour.

DENATURED ALCOHOL.

The withdrawal of distilled spirits free of tax for denaturation showed during the year a considerable increase, 10,598,749.2 gallons having been withdrawn for this purpose during the fiscal year 1910, as compared with 7,971,636.4 gallons for the fiscal year 1909. No industrial distilleries are in operation, however, and no considerable amount of denatured alcohol has been used for purposes other than in connection with certain lines of manufacturing. It appeared, therefore, unnecessary to keep up a separate organization for the supervision of this business, and Congress was requested to provide for a small number of employees on the regular roll, which was done, and the appropriation of \$200,000 per annum that had heretofore been made to carry on this work was not continued.

The use of denatured alcohol in manufacturing will, it is believed, continue to increase, and should manufacturers succeed in reducing the price of this product to a point where it can successfully compete with petroleum products its use would undoubtedly be enormously extended.

CHEMISTRY.

The efficiency of the bureau in its work in connection with distilled spirits (including denatured alcohol), fermented liquors, oleomargarine, and various butter products, has been greatly improved by the extension of the work of the Division of Chemistry. During the year 7,670 samples from field officers were received and analyzed. In addition thereto, considerable experimental work in connection with distilled spirits, fermented liquors, wines, and other alcoholic beverages has been done, particular attention having been paid to analyses of patent medicines and preparations containing alcohol to determine whether or not such preparations are sufficiently medicated to render them unfit for beverages.

The chemists employed in this bureau are called upon as witnesses in United States courts in all parts of the country to testify for the Government as chemical experts, and district attorneys generally throughout the country have spoken in very commendatory terms of their service in this regard.

CLAIMS.

During the fiscal year ended June 30, 1910, there were received 6,901 claims of all kinds, aggregating in value \$1,837,743.90. During the same period 6,023 claims were acted upon, leaving pending July 1, 1910, 2,226 claims, the greater part of which are held awaiting evidence or completion in other respects, or are held pending decision of the Supreme Court on questions of law involved.

There were on hand at the close of the fiscal year 1910, 842 claims for the refunding of legacy taxes, amounting to \$4,677,915.31. Practically all of these were held awaiting decisions of the Supreme

Court under the principles of law announced in *Tilghman v. Eidman* and *Union Trust v. Westus & Allen*.

No legacy claims have been allowed except for the refunding of taxes upon remainder interest falling clearly under the decision of the Supreme Court in the *Vanderbilt case*. The allowance in this class of cases amounted to but \$65,692, covering in whole or part 61 claims, the rejected balances of which amounted to \$65,000. In addition thereto there were 35 claims rejected in toto, amounting in round numbers to about \$80,000.

All legacy tax claims now pending are held for final decisions of the Supreme Court, interpreting the principles announced in the cases aforesaid.

Claims pending under the *Tilghman* doctrine, not barred by the statute of limitation, amount to \$1,137,580. These claims will all be disposed of favorably to the Government in accordance with the decision of the Supreme Court in *Hertz v. Woodman*, decided May 31, 1910. The remainder of legacy tax claims are held awaiting a decision of the Supreme Court as to the legality of tax on estates for life and years, which decision is expected sometime during present fiscal year. These claims aggregate a little more than \$2,700,000.

There have been received in connection with the special excise tax on corporations, imposed by section 38 of the act of August 5, 1909, 2,022 claims for abatement of the assessment and 782 claims for refunding amounts paid. Up to October 1, 1910, 1,856 abatement claims had been acted upon, leaving 236 to be considered, and 665 refunding claims had been acted upon, leaving outstanding 117.

LAW DIVISION.

On July 1, 1909, there were pending 303 civil cases and 4,376 criminal cases growing out of internal-revenue laws. During the year there were instituted 100 civil and 4,019 criminal proceedings. On June 30, 1910, there were pending 255 civil and 4,040 criminal cases, 148 civil and 4,355 criminal cases having been disposed of. In addition to the court cases handled, numerous reports of violations from officers in the field were received and examined and during the fiscal year 1910 5,180 compromise cases growing out of such violations in this or previous years were acted upon.

The total number of seizures reported during the last fiscal year was 3,184, as compared with 2,725 during the year previous.

The number of cases of destruction of stills and distilling apparatus reported for the six months ended June 30, 1910, was 1,061, as compared with 721 for the previous six months. Most of these cases were in the States of Georgia, Alabama, and North and South Carolina.

All of the various legacy-tax cases growing out of the War Revenue Act of 1898 have now been decided, except those cases involving the question of the legality of the tax on estates for life and years. A test case is now pending in the Supreme Court and an early decision is hoped for.

A new compilation of the internal-revenue laws is in course of preparation and will be issued as soon as practicable.

STAMPS.

During the fiscal year 1910, 3,166,987,749 internal-revenue stamps of the value of \$290,337,675.70 were delivered to collectors of internal revenue. This was an increase of 17 per cent in number and upward of 10 per cent in value, as compared with the previous fiscal year.

This increase was in a degree due to the changes in the rate of tax on tobacco, snuff, and cigarettes under the act of August 5, 1909, effective July 1, 1910, which resulted in large shipments during the months of June and July of stamps of both the old and new series of the classes affected. This act increased the rate of tax on tobacco and snuff from 6 cents per pound to 8 cents per pound. It also made a rate of \$1.25 per thousand on cigarettes in lieu of the 54 cents and \$1.08 tax formerly levied and increased the rate on large cigarettes from \$3 to \$3.60 per thousand. The tax on small cigars was fixed at 75 cents per thousand instead of 54 cents.

The new law also increased the number of denominations of tobacco stamps from 9 to 22 and of snuff stamps from 11 to 22 and authorized stamps for fives and tens cigars \$3 per thousand and stamps for fives, eights, and fifteens cigarettes and small cigars. The 1½ and 3½ ounce packages for tobacco and snuff were discontinued, and the stamps for those classes now progress by one-quarter ounces, running from one-half to 16 ounces, the fractional ounces stopping at ¾-ounce stamps.

Under an agreement entered into by the Secretary of the Treasury and the Postmaster-General the Internal-Revenue Bureau is now forwarding all its stamps in registry pouches direct from the stamp vault to the various collectors and stamp deputy collectors of internal revenue throughout the country, covering some 116 points of destination. While this service has entailed additional labor, not only upon this bureau but in the collectors' offices, the work has been done in a thoroughly satisfactory manner and will no doubt prove to be a step in the line of wise and economical administration. During the first three months of the fiscal year 1911, 39,155 packages of stamps, averaging approximately 16 pounds to the package, were thus forwarded by registered mail. This was an increase of 4,933 packages over the corresponding period of the fiscal year 1910.

REVENUE AGENTS.

The activity of the revenue agents and other officers in the field during the past fiscal year is worthy of high commendation. There were reported during the fiscal year 5,100 violations of internal-revenue laws, as compared with 4,039 violations in the year before, and the total number of seizures reported during the past fiscal year was 3,184, as compared with 2,725 during the year previous.

ILLICIT DISTILLING.

All of the agents force available for raiding has been used during the year in detecting illicit distilling, which practice has increased steadily, especially in those states where state-wide prohibitory laws

have been enacted. During the fiscal year 1910 there were seized and destroyed 1,911 distilleries, as compared with 1,743 for the fiscal year 1909. In raiding these distilleries last year one officer was killed, 3 seriously wounded, and there were a number of minor casualties. Most cases of illicit distilling are found in the states of Alabama, Georgia, North and South Carolina.

RECOMMENDATIONS.

(1) Considerable complaint has been received from the collectors and officers of internal revenue throughout the country on account of the fact that their compensation is not as great as that received by officials holding similar positions in the customs service or in the postal service. An examination would indicate that this complaint is well founded. It is recommended that a careful investigation be made of this matter and, if found to be correct, that Congress should be asked to reclassify the salaries of collectors so that a collector of internal revenue whose receipts exceed \$1,000,000 should be paid \$6,000; that the minimum salary paid a collector be \$3,000; that all fees and allowances for territorial extent or otherwise be abolished, and that the salaries for collectors ranging between the minimum and maximum be based on the same proportionate scale in accordance with the scale of collectors as at present.

It is recommended that the chief deputy in each collector's office be paid an amount not to exceed 50 per cent of the amount received by the collector. It is recommended that the cashier in the office of each collector be paid an annual compensation not to exceed 40 per cent of the amount received by the collector. The lack of a fixed-scale of compensation in offices of these grades is a source of annoyance and is believed to be detrimental to the best interests of the service.

OTHER THAN TAX-PAID SPIRIT STAMPS.

(2) Enormous quantities of stamps are used by rectifiers, wholesale liquor dealers, and distillers for which no charge whatever is made. In addition to furnishing the stamps free of cost, the Government assumes all the expense of their transportation and distribution, the gauging and stamping of rectifiers' packages, and the issue, recording, and handling of wholesale liquor dealers' and transfer stamps. The actual cost to the Government in connection with these classes of stamps is no inconsiderable item. Attention has been called in previous reports of this bureau to this burden placed on the Government, and recommendations have been made for legislation requiring the payment of a small sum per stamp by the users of the same, sufficient at least to meet the cost of printing, handling, and affixing, and the gauging of spirits at rectifying establishments. After a careful examination of the matter I am of the opinion that a charge of 10 cents each would be sufficient to meet these expenses and leave a small margin in excess.

By reference to the annual report for 1905 the statement will be found which shows the relative number of these classes of stamps used at that time, and it is safe to say that the number being used at this time is largely in excess of that for 1905. I therefore recom-

mend that legislation be requested placing a charge of 10 cents each on stamps for distilled spirits other than tax paid.

(3) Attention has heretofore been called to the difficulty in administration of the oleomargarine law owing to defects in the statute, and especially the impossibility of the enforcement of the collection of the dual rate of tax.

To remedy existing evils developed in attempts to enforce the provisions of the act of August 2, 1886, as amended by the act of May 9, 1902, it is recommended that legislation be requested for the enactment of a law taxing oleomargarine at a single rate. It is practically impossible to collect the higher rate of 10 cents per pound when oleomargarine of a different class is taxed at one-fourth cent per pound. The inducement for fraud in the classification of the product results in great loss to the Government.

(4) Under existing law internal-revenue agents are not empowered to administer oaths. In the execution of their duties it is often necessary to procure sworn statements of individuals for use as evidence in the prosecution of frauds. Not being authorized to administer oaths, the revenue agent must call for the services of a deputy collector of internal revenue, or take the person before some other officer endowed with power to administer oaths. This process causes loss of time and expense, and frequently defeats the purposes of the investigation.

I would therefore recommend that Congress be requested to amend section 3165, Revised Statutes, so as to include revenue agents and inspectors among the officers authorized to administer oaths in matters relating to the execution of internal-revenue laws.

(5) *Outage or wantage*.—Section 50, act August 28, 1894, as amended, contains a tabulated statement known as the Carlisle tables, setting forth the maximum amount at various ages that can be allowed on any package of distilled spirits held in bond. The records of this office show that the amounts allowed are not in accord with the actual wantage due to evaporation in warehouses under modern methods of aging spirits. Due largely to this statement of facts, the offense of equalization has been very prevalent. I am of opinion that that section should be revised and amended and a new table of allowances compiled in accordance with the actual losses sustained by evaporation or causes without the neglect of the owner of the spirits, as disclosed by the records of the past fifteen years.

(6) *Substitute officers*.—Under section 3153, as amended by act August 15, 1876, storekeepers, storekeeper-gaugers, and gaugers are appointed in accordance with civil service regulations by the Secretary of the Treasury upon the recommendation of the collector of the district in which they are to be employed. The number of these officers needed in each district in which distilling and warehousing of distilled spirits is done, fluctuates considerably. Under section 1, act March 3, 1885 (appropriation act for 1886), a collector is authorized to carry on his roll surplus officers not to exceed 15 per cent of the number employed. Owing to the necessity for this excess of officers and the regulation of this department that the work shall be distributed among all the officers as equitably as possible, and of the further fact that these officers are paid on a per diem basis only when under actual assignment, it is very difficult for a collector to avoid in

some cases working hardship and laying himself open to the charge of injustice or partiality in making assignments or continuing particular officers at work for longer periods than other officers. To avoid this trouble in the future, I have the honor to recommend that the method of employing these officers be changed so that instead of being appointed a storekeeper, storekeeper-gauger, or gauger, the officer shall first be appointed a substitute, and no more regular officers be appointed until the number of officers in each district shall have been reduced to the needs of the service, and that all temporary or emergency work be performed by such substitute officers. In this way the complaints of injustice and partiality will be largely avoided, the officers will become experienced in their duties before being put on regular assignments, and a collector will have opportunity to weed out persons who will not become efficient. I am of opinion that the change suggested is badly needed, and I have the honor to request that the necessary legislation be recommended for enactment.

ASSESSMENT DIVISION.

The following statements relative to assessments; to spirits deposited and withdrawn from distillery warehouses, general bonded warehouses, and special bonded warehouses; to spirits removed from cistern rooms of distilleries and from distillery warehouses for denaturation; to the exportation of distilled spirits, fermented liquors, tobacco, snuff, cigars, cigarettes, and playing cards in bond; to the exportation of distilled spirits, tobacco, cigars, cigarettes, and stills with benefit of drawback; to the use of grape brandy free of tax in fortifying wines; and to the excise tax imposed on corporations are prepared from reports in the division of assessments.

As shown by the following statements 1 and 2, the amount of taxes, penalties, interest, etc., assessed during the last fiscal year exceeded that assessed during the fiscal year 1909 by \$27,006,220.07. This large increase, however, is due to the assessments made during the year against corporations taxable under the provisions of section 38, act of August 5, 1909. Of the \$27,130,904.82 so assessed against these corporations there were collected during the fiscal year 1910 \$20,959,783.74. The amount so collected from each class of corporations is shown on page 31 of this report.

While the quantity of distilled spirits remaining in bonded warehouses June 30, 1910, was somewhat augmented by the large production during the year, the quantity so held in bond does not appear to be abnormally large in view of the large annual withdrawals and the fact that such bonded spirits are allowed to remain in warehouse for a period of eight years from the date of original deposit.

Statements in detail are given on pages 32-57 showing transactions at bonded warehouses, the quantity of spirits and other taxable articles removed in bond for export, and the quantity of spirits used in the fortification of domestic sweet wines. These statements show, in addition to items above noted, a material increase in the quantity of spirits withdrawn from bond during the year for denaturation, for the fortification of domestic sweet wines, and a very noticeable decrease in the quantity of bonded spirits lost by fire or other casualty during the year.

REAL ESTATE ACQUIRED BY THE UNITED STATES UNDER THE INTERNAL-
REVENUE LAWS.

The Commissioner of Internal Revenue has charge of all realty acquired under the provisions of the internal-revenue laws and is authorized, with the approval of the Secretary of the Treasury, to sell at public vendue the interest of the United States in such realty.

During the fiscal year ended June 30, 1910, the United States acquired title to real estate in three cases—in two cases by sales by collectors under distraint proceedings and in one instance by a sale by United States marshal under execution.

Six sales of real estate were made during 1909-10, wherein quit-claim deeds were executed to the purchasers. In two instances the property was redeemed in accordance with the provisions of section 3202, Revised Statutes, and one case was disposed of by the settlement effected in the court cases connected therewith, the real estate being released in accordance with the terms agreed upon.

Sales under distraint to private purchasers were made by collectors of internal revenue in two cases during the last fiscal year.

One suit in ejectment was pending in the western judicial district of North Carolina on July 1, 1909, and is now pending.

The following is a statement of the tracts or lots of land acquired under the internal-revenue laws and owned by the United States on the 30th day of June, 1910, aggregating about 2,000 acres.

TEST CASES.

The test cases instituted to determine whether the pure food law of June 30, 1906, repealed section 3449, Revised Statutes, relative to shipping liquors under other than the name known to the trade, viz, the case of the United States *v.* Stevenson & Co., in the northern district of Illinois, and a civil case brought in the western district of Oklahoma, have been decided. It was held in both cases that section 3449, Revised Statutes, was not repealed.

MISCELLANEOUS DIVISION.

OLEOMARGARINE, ADULTERATED BUTTER, PROCESS OR RENOVATED BUTTER, FILLED CHEESE, AND MIXED FLOUR.

The following tables show the operations under the oleomargarine law, act of August 2, 1886, as amended by act of May 9, 1902, defining and imposing a tax upon and regulating the manufacture, sale, exportation, and importation of oleomargarine, adulterated butter, and process or renovated butter; also transactions in filled cheese, as defined by the act of June 6, 1896, imposing a tax upon and regulating the manufacture and sale of this product, and under the act of June 13, 1898, as amended by act of April 12, 1902, defining and imposing a tax upon mixed flour and regulating its manufacture, sale, exportation, and importation, during the fiscal year ended June 30, 1910.

Reference has heretofore been made in this report to the figures for the fiscal year ended June 30, 1910, in comparison with previous years, and the conditions growing out of the dual rate of taxation on oleomargarine, the activities of the officers in the field, and the results obtained in an effort to enforce the provisions of the law.

INTERNAL-REVENUE STAMP PAPER.

Advertisements were published inviting sealed proposals to furnish distinctive paper on which to print internal-revenue stamps for the fiscal year ending June 30, 1911, and one bid was received. This proposal was opened May 4, 1910, by a committee appointed by the Secretary of the Treasury. After careful inquiry into current paper trade conditions, the contract was awarded at the price proposed, 4.8 cents per pound. The previous contract price was 4.2 cents per pound. During the fiscal year ending June 30, 1910, the bureau ordered 2,105,861½ pounds of this paper, at a cost of \$88,446.19.

PRODUCTION OF STAMPS.

All of the stamps issued by this bureau are engraved and printed by the Bureau of Engraving and Printing, with the exception of tobacco stamps imprinted on tin-foil wrappers. The printing of these stamps is done under contracts and without cost to the Government, the contractors receiving their remuneration from the purchasers of the stamps and reimbursing the Government for the salaries of agents and counters necessary to properly supervise the work.

RESTAMPING.

One hundred and forty applications for restamping tax-paid articles, under section 3315, Revised Statutes, were considered and disposed of during the year.

Stamps of various kinds and denominations, fractional books from outgoing officials, and stamps for which there was no use, to the value of \$21,530,950.34, were returned by collectors and credited in their accounts.

TOBACCO DIVISION.

The total receipts from internal-revenue taxes levied and collected on domestic and imported tobacco manufactures paid by stamps, and including collections by assessment, during the fiscal year ended June 30, 1910, amounted to \$58,118,457.03.

MANUFACTURE OF TOBACCO PRODUCTS FOR THE CALENDAR YEAR 1909.

The tables, numbered from 1 to 4, inclusive, found at the close of this chapter show, by districts and States, the number of persons or firms engaged in the manufacture of cigars, cigarettes, and tobacco and snuff, the quantities and kinds of materials used, and products manufactured. These tables are compiled for the calendar year for the reason that manufacturers' accounts are, necessarily, comprehended by the annual inventory required by law to be taken on the 1st day of January of each year.

Tables Nos. 1 and 2 relate to the manufacture of cigars and cigarettes, respectively.

The total number of cigar manufacturers for whom accounts were rendered for the calendar year 1909 was 23,484, which includes 572 manufacturers of cigarettes.

The total number of cigars made weighing more than 3 pounds per thousand was 6,667,774,915, an increase of 178,867,646, compared with the production of 1908.

The total number of cigars made weighing not more than 3 pounds per thousand was 1,043,023,559, a decrease of 29,488,981 cigars, as compared with the production for the previous year.

The total number of cigarettes made weighing more than 3 pounds per thousand was 17,794,163, an increase of 125,391 over the previous year.

The total number of cigarettes made weighing not more than 3 pounds per thousand was 6,818,858,272, an increase of 1,076,025,748 over the previous year.

The average quantity of unstemmed tobacco used in making 1,000 cigars weighing more than 3 pounds per thousand was 19.83 pounds; in making 1,000 cigars weighing not more than 3 pounds per thousand, 4.22 pounds; in making 1,000 cigarettes weighing more than 3 pounds per thousand, 8.79 pounds; in making 1,000 cigarettes weighing not more than 3 pounds per thousand, 3.45 pounds.

Tables Nos. 3 and 4 relate to tobacco and snuff.

There was an increase of 89 in the number of tobacco and snuff factories operated during last year, as compared with the previous year.

There was an increase of 1,917,989 pounds unstemmed leaf tobacco, 5,579,965 pounds stemmed leaf, 757,708 pounds scraps, cuttings, and clippings, 13,119,202 pounds of tobacco in process, 4,162,032 pounds of stems, 2,582,794 pounds of licorice, 3,032,286 pounds of sugar, and 1,777,539 pounds of other materials used in manufacturing tobacco and snuff, as compared with the previous year.

There was a total increase of 32,929,515 pounds in the quantity of materials of all kinds used, as compared with the previous year.

There were increases of 8,705,360 pounds of plug, 149,245 pounds of twist, 394,375 pounds of fine-cut chewing, 10,144,764 pounds of smoking tobacco, and 4,419,220 pounds of snuff manufactured, as compared with the previous year.

Snuff was manufactured in 24 districts, the total production amounting to 28,454,958 pounds.

The first district of Pennsylvania produced 9,753,758 pounds of snuff from snuff flour transferred under permit from the districts of Maryland and Tennessee; New Jersey produced 8,434,489 pounds, all manufactured in the fifth district; Tennessee produced 5,428,034 pounds, and the first district of Illinois produced 4,346,785 pounds.

PRODUCTION OF MANUFACTURED TOBACCO, SNUFF, CIGARS, AND CIGARETTES DURING THE PAST TEN CALENDAR YEARS.

[These tables are compiled from an annual abstract statement of manufacturers' accounts, prepared by collectors of internal revenue for their respective districts at the close of each calendar year, and they relate exclusively to tobacco, snuff, cigars, and cigarettes manufactured in the United States.]

OPIUM.

During the fiscal year ended June 30, 1910, no internal-revenue taxes whatever were collected from opium manufactured for smoking purposes.

The act approved February 9, 1909, prohibits the importation and use of opium for other than medicinal purposes, therefore the only source of supply for any person desiring to manufacture smoking opium would be to obtain opium produced from poppies grown within the boundaries of the United States.

Respectfully,

ROYAL E. CABELL,
Commissioner of Internal Revenue.

Hon. FRANKLIN MACVEAGH,
Secretary of the Treasury.
